

## MONITORING FOR POTENTIAL HEALTH PROBLEMS

This preventive care testing will add to our understanding of what is normal for your best friend, establishing a baseline that we will compare to in the future.

When you bring your pet back for testing each year, we will track subtle changes more effectively. This improves our ability to detect disease in your pet even when values are normal, or before any outward signs of illness can be seen.

By spotting problems at the earliest possible stage, we may prevent or treat disease with greater success.

*The more data we have, the better we can support you in providing your pet with a long, healthy and happy life!*

### HOURS

MONDAY, WEDNESDAY, THURSDAY, FRIDAY

7:00AM-6:00PM

TUESDAY

8:00AM-6:00PM

SATURDAY

8:00AM-5:00PM

SUNDAY

9:00AM-5:00PM
